We thought it well to ascertain from the local Agents whether they could throw any light on the San Francisco rumours, but they tell us they have no information whatever, and do not attach to shareholders about two thirds of the the smallest importance to the reports, more especially as the latest advices from Messra J. Whittall & Co., the General Agenta. were quite estisfactory. It was reported from London early last month that, a travelling American engineer had been circulating some highly flavoured statements assist market manipulation of the shares, and we dare say it will be found in time that the spicy rumours we refer to have had a similar origin. Here is an extract from one of the papers alluded to :-A telegram dated London 25th July says :- There is B lively row in London over the facts discovered about

Imuris mines in Socorro county, N. The money paid for the property was \$620.0 0. of which \$337,000 was paid in cash. The chairman of the board of directors, James Whittall, one of the wellknown solid London merchants, paid the wines a visit before the purchase. He was accompapied by a Welsh mining expert, who made an enthusiastic report. A year ago the man who sold the mine to the English company had a row in New Mexico with a partner, and was shot dead. A couple of months ago gentlemen interested in the company sent an American Womble of San Francisco, to examine the property and report. Womble returned five weeks ago. He declared the ore on the dumps was of good quality at the surface, but was rubbish underneath. May an official circular declared ere to value of \$2,000,000 was in aightireliable expert mays the ore in might is not worth \$50,000.

The Chairman said .- The report and

accounts having been several days in your

hands I have no doubt you have carefully

examined them and with your kind permis-

sipp we will consider them read. You will

observe that the nott profits for the ball year just closed amounts to the respectable sum of \$282,320.48 and nearly approach the exceptional earnings the previous six months. The gross takings are the highest recorded since the formation of the company 30 years ago. These satisfactory results enable your Directors to maintain the dividend declared last February bosides writing off a considerable with for depreciation and to reduce the loans and overdrafts from \$802,117 to \$381,487 The new Bungalow for the European Staff at Aberdeen referred to in the last report was completed and occupied early this year and the health of the men has much improved by the change of quarters. Gentlemen, so much for the past, and I leave you to form your own opinion regarding the probable linaupial position of the Company in two or three years' time. Although at the moment we have not quite so much, work on hand as we could wish I have no doubt that at the close of the carrent half year our returns will be quite up to the average. M. Smith said he thought avery thereholder must be gratified after readiry this report which showed substantially what had been predicted by himself and others who understood the trade of this port. He was very giad to see the directors had followed the policy he advocated two years ago of writing down the Scritions value of their property and paying dividende according o their sarnings. He, however, war bound

consistently to object to at teast one item in the report. He would not move any smendm nt. but he would emphatically enforce what he said times without number egainst the bonus of \$10,000 to contributing shareholders it was defrauding the reneral shareholders. There was a time, 15 years ago, when Mr Gillies, who had been the avviour of this company, first oined the company, when contributing shareholders was an item to be considered. There was then three or four coposition companies in the Colony and it was policy to secure work by offering apacia inducements. Now there wan only one dock company and no ground for special nducements. The \$10,000 was simply a bonus or commission paid to the directors who were paid for their acryless - paid because they were in a position to govern the work, that goes to the Dock Chimbany. There was a clause in the Articles of America tion, he knew, which bound them to p an amount to contributing shareholds

The Chairman-You have no right to Mr Smith That point his been seitled Mr Smith next took exception to the \$19 000 given as a bonus to the amployee. They were entitled; he said, to an adequate salary whether the season was good or bad.

The Chairman-It is given at the suggest-Mr Smith said the directors peed not be bound by the shareholders. Her Belilion was the person who suggested the bonus. He (Mr Smith) did not think the directors were under the thouse of Mr Beillos. He seconded the report which he thought reflected Infinite credit on the unanagement of Mr Gilles and the persons associated with him in the business. In this case the plaintiff sought (1) to be declared entitled as co-tenant with the defendant to an undivided half share and interest in Marine lots 34s, 168, 169, 46 and 47, and Inland lot 871; have an account of the rents and profits of the said lots received by Ho Tsun Shai deceased and by the defendant under his will from 4th April 1871 to th date of the action ; (3) to payment of any balance that might be found due on taking the said account, with interest and costs of the suit; or to a partition of the said property between the plaintiff and the de-

fendant. Mr Francis, Q.C., instructed by Mr Wilkinson, was for the plaintiff, and Mr Drummond and Mr Phillippo, instructed by Mesers Ewens and Reece, for the defence. The following were the jury :- Messrs S. C. Michaelsen, G C. Anderson, R. Lyall,

Ho Taun Shui laboured for a c naiderable time in Hongkong as a missionary in connection with the London Missionary Society, and at his death in 1871 he left a very considerable property running in value pretty nearly into six figures, and the present inquiry was as to how he came by some of this. whether honestly or not. At the same time there was in the colony an uncle of Ho Tsun Shui, named Ho Tsun Sz. He was also connected with the London Missionary anciety. These two, uncle and nephow, in these early days, invested whatever money they had saved in the purchase of three THE HONGKONG BANK MEETING. marine lots in Jervois Street. These lots were 90 9d and 34s. The lots were not of any great value at that time and they were purchased for four or five hundred dollars each. They were purchased in the name of Ho Yeung, which was another name for Ho Tsun Shui and was the name by which he would always be referred to in the case from this point. In 1854 these three lots were still atanding in Ho Yueng's name; but at this time an alteration was made. Lot 34s was allowed to remain in the name of Ho Yeung, while 90 and 9d were transferred to the name of Ho Taui Mun. H wished the jury to take partioular note of this name. It was alleged on the part of the defendant that this name was simply mother many of Bo Yeung. No explanation was given as to why that change of the name was made. The plaintiff said that some differences had arisen between Ho Yeong and Ho Tsun Sz and an arrangement was made dividing the property and the plaintiff said that Ho Tsui Mun was a new name invented by the parties to represent their partnership or common interest and that there was an actual division of property made. CORRESPONDENCE o the Editor of the ' CHINA MAIL.'

Hongkong, Aug. 24. Sir. I observe in the reports of the above meeting that the Chairman, Mr J. S. Moses, is reported to have stated, in reply to my remarts rolative to the election of the Chairman, "What does it matter what yon'think about it?'

Will you permit me to say that had I

heard these remarks I would have dealt with this impertinence as it deserved to be. It seems to be almost beyond belief that Mr Moses, holding the position he did of Chairman of an incorporation like the Hongkong Bank, was ignorant of the fact that the matter referred to concerned every shareholder slike, and that it rests with the horty of shareholders to change or modify the Articles of Association for Dead of Settlement, as he called its when they deem it expedient to do so. In this trifling matter, the Chairman's lack of judgment

was painfully manifest. It occurs to me it would be a matter courtesy, when the Chairman has such peculiar articulation of English, as M Moses has, that an interpreter should act for him on such occasions. In this case the seeming disconifort he was suffering from would have been avoided to some

THE TERRIBLE BAILWAY ACCIDEST TH WHANCE. Paris, July 27. - Many of the unfortanate people imprisoned beneath the wreck at St. Mando were drowned by the lifemen, who turned torrents of water ou the burning cars, and scemed to be gitterly upaware that they were drowning the

people they were attemp ing to rescue. The majority of the victime weld women and children. The work of rescue proceeded slowly during the night until dawn. The people then began to flook to the scene by thousands, many seeking friends who had not returned from the fets by daybreak. There were 20,000 persons around the station, and the school-room and Town-Hall, where the bodies were lying, were benieged by distracted people. Inside there was a constant succession of heartrending scenes as the identification of charred and mangled bodies proceeded.

Among the injured who were sent to the hospital a number died immediately after admission and many more are expected to succumb. Inquiry into the causes of the scoident shows that a second train left minutes after the first train. The latter train was delayed at St. Mande owing to the enormous crowd of excursionists. The station-master at Vincenues blames the driver of the second train for the accident. When this train was starting the station-master advised the driver to go slowly, as there was a train in frent of him, but the man paid no heed to the advice and went shead at full speed. This driver at first alleged that all signals indicated the line to be clear, but inquiry confirms the report of officials at St. Mande and Vincennes that danger signals were shown. The driver now asserts he has been the victim of an act of revenge on the part of some one who out the pipes of the air brakes, thus preventing them from bringing the train to a statistial. The official statement makes the humber of dead forty-three and the injured 104.

Among the victims are Marquis, and Marquine Montelerata. An artillery lieutenant climbed to the top of a burning carriage to rescue a girf, but he fell with her into the burning mass and neither was seen again. It is reported that warrants have been issued for the arrest of the driver of the second train and the traffic is anager at Vincennes station.

Paris, July 20. - The terrible excursion train collision at St. Mande, near this city. is still the feature of popular interest here. The newspapers of this city and the provinces are filled with the harrowing details of the disaster. Such minutly railroad accidents are not every-day occurrences here. They were popularly supposed to be confined to the United States. The bodies will be placed in the cometery at St. Mande, and the funeral will be conducted at the expense of the commune.

The assistant atation-master at Vincennes and the driver of the second angine have been arrested and charged with having contributed, by carelesaness, to the events which brought about the collision. The body of the lady among the victims of the disaster announced as being that of the Marquise de Montaferata prove to be that of Mme. Blaucey, or Blanchet, of New

Up to the present time the official mquiry has failed to establish clearly the real cause of the collision, which is attributed in turn to revenge, malice, carelessness and incompetence. According to the revelations on to this hour the action of the firemen in
